

PREPARE FOR A NEW ERA
OF MOBILE CONNECTIVITY

EXCLUSIVE BY

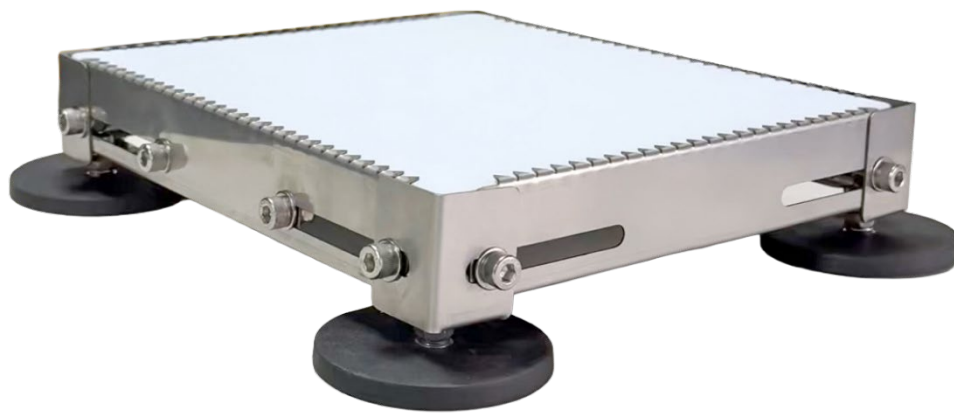

TELESPAZIO

a LEONARDO and THALES company

Powered by **M.SE**
MOBILE SOLUTION EXPERT

Telespazio Brasil and **Grupo Racco** have joined forces to redefine the connectivity market in Brazil! With **Veloce**, you can take ultra-high-speed internet anywhere without compromising connection quality.

Veloce is a mobile satellite terminal that gives you access to a world of technology and innovation.

High-speed internet

Stay connected wherever you are

Veloce transforms any means of transportation (vehicles, trucks, trains, vessels) into a powerful Wi-Fi antenna, operating wherever you are.

SPECIFICATIONS

VELOCE SEMPLICE MINI

(Starlink Router)

Dimensions _____ 31 x 27 x 6 cm

Certification _____ IP 67

Weight _____ 3,6 kg

Power Supply _____ 9 to 30 VCC

Average Power Consumption _____ 25 - 40 Watts

Peak Power Consumption _____ 55 Watts

Starlink Router

Wi-Fi Network _____ 2.4 Ghz and 5 Ghz Wi-fi 5

Radio _____ Dual-Band 3×3 MU-MIMO

Speed _ Download speeds up to 200 Mbps and upload speeds up to 20 Mbps

Low-latency satellite connection _____ 25ms to 100+ ms

Secure Wi-Fi access with support for multiple security protocols _____ WPA2

DHCP server for automatic IP address assignment to devices on the network.

ACCESSORIES

- Step-up converter with vehicle power socket;
- Steel cable for enhanced security;
- Four sets of high-power neodymium magnets for mounting on ferrous metallic surfaces.

KEY BENEFITS

- Reinforced structure with compact metal frame;
- No antenna modifications required;
- Uses the antenna's original power cable;

- Compact step-up converter with overvoltage and overheating protection;
- Manufactured in SAE 316 stainless steel with electrostatic coating, resistant to salinity and sea air exposure, with an estimated minimum durability of 30 (thirty) years under normal conditions of use and exposure, certified in accordance with ABNT NBR 8094/83 standards.
